COMPANY OVERVIEW

N-iX is a global technology consulting and software engineering company that helps world's leading organizations turn challenges into lasting business value, operational efficiency, and revenue growth using advanced technology. Whether you need to build a custom solution, modernize your digital product or acquire extra tech expertise — we have the experience and capabilities to ensure your success.

With over 2,000 professionals in 25 countries across Europe and the Americas, N-iX offers expert solutions in cloud, data analytics, embedded software, IoT, AI, machine learning, and other tech domains. Being in business for over two decades, we have worked with dozens of industry-leading enterprises and Fortune 500 companies creating value across a wide variety of sectors, including finance, manufacturing, supply chain, retail, e-commerce, healthcare, and more.

Services & cooperation models

CUSTOM SOLUTION DEVELOPMENT

Build a custom solution, modernize your system, or solve a specific business issue with our end-to-end software solution development services.

MANAGED TEAM

Delegate part of your product development to a separate, self-sufficient engineering team integrated with your delivery organization.

TECH CONSULTING

Validate an idea, optimize existing processes, tap into new income streams, or harness new technology with tech consulting services that bring results.

EXTENDED TEAM

Grow your team and expand your software development capabilities with flexibility in mind.
